

Higher Studies Abroad Mentoring Programme

General Guidance for Mentoring Programme

Services:

- Providing general information about foreign universities, scholarships, living, and travel/visa
- Providing guidance for preparing application for admission and scholarships

Communication process:

Any member who wants information about higher studies abroad may contact the coordinators or the mentors directly. But it is preferred that the member inform the coordinator with whom (mentor) he/she is in contact (or wants to contact). This will help the coordinators keep track of the mentor service.
